

ELXIR
RESERVE

A land is distinguished by its curves, contours, peaks and textures. The pattern on the cover page is a symbolic representation of the topographical map, denoting the expansive land that cocoons Elixir Reserve. The undulations signify its terrain, its uniqueness. It is more than just a piece of land. It's a reserve that is truly blessed by nature.

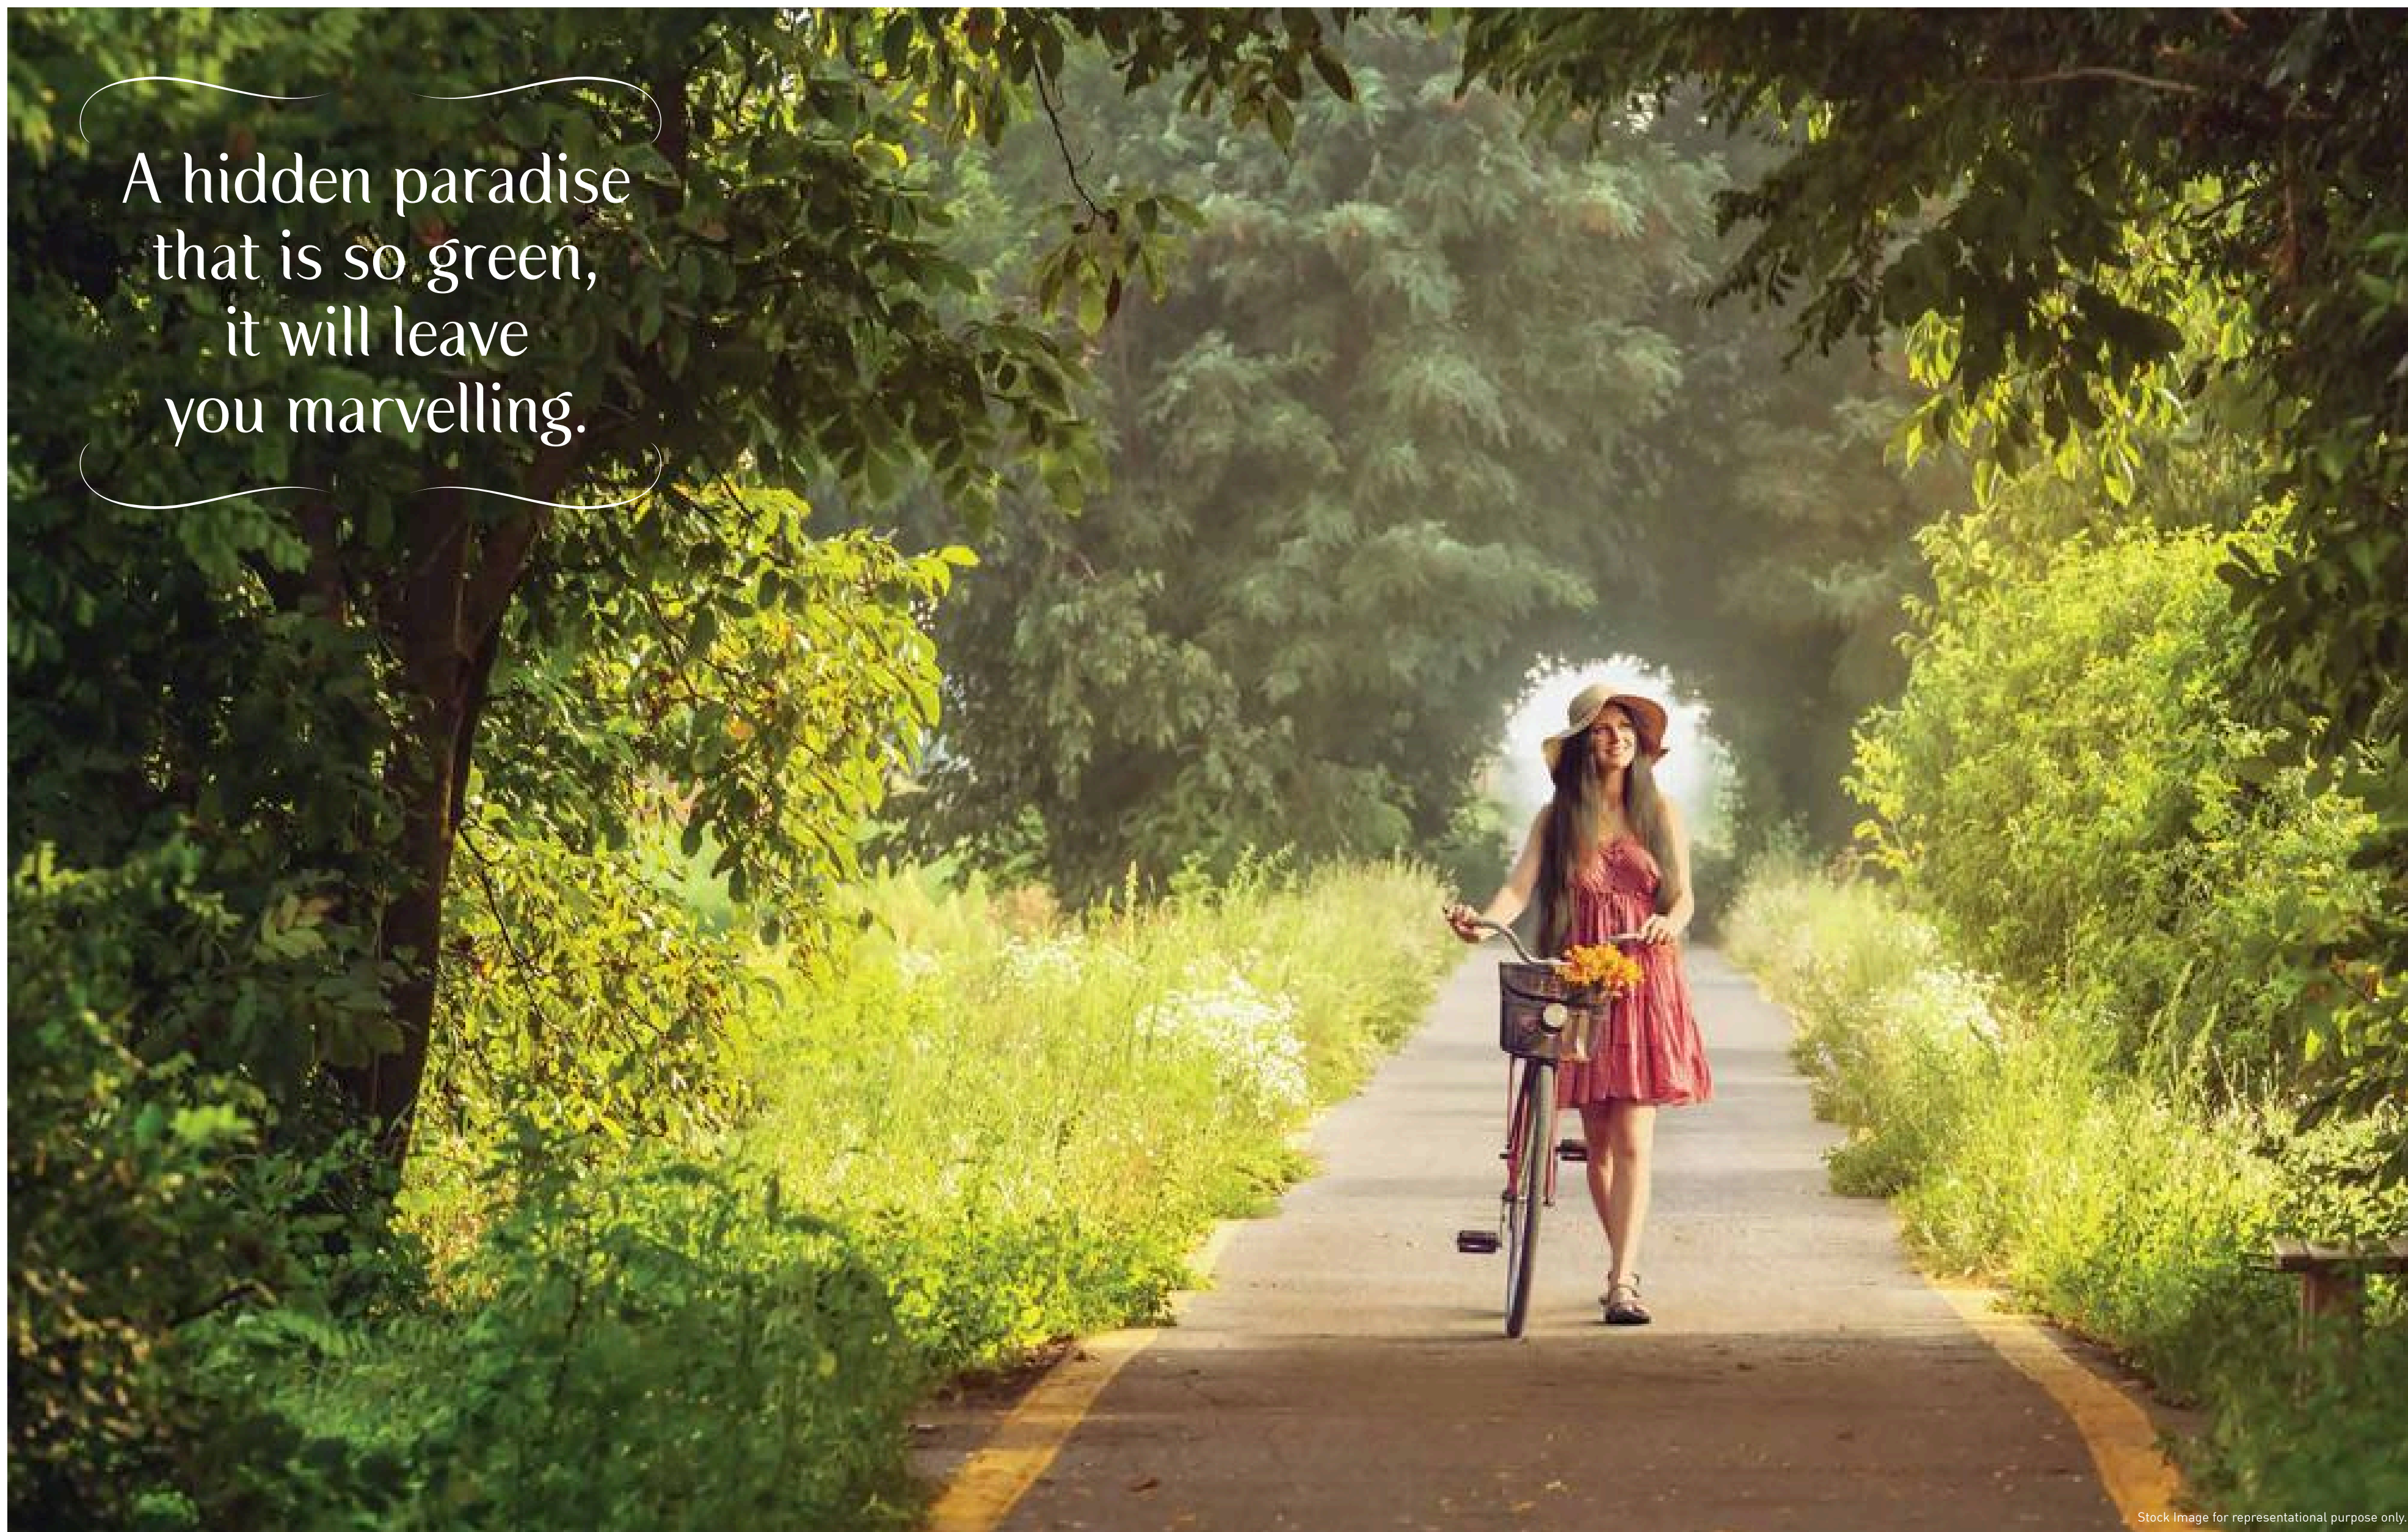

We want to let you in on a little secret. There's a green wonderland in the middle of the busiest city in the world; Mumbai. It's a place like no other, blessed by nature — blissful and sublime. Surrounded by a forest, hillock and lake, it truly is a sight to behold. Where in every season, nature surprises us with its unique hues and colours. It's a reserve that nurtures life like a precious elixir. A landmark address that is desired by all but will be home to only a select few. **Welcome to Elixir Reserve.**

A woman with long dark hair, wearing a white sleeveless dress and a wide-brimmed white straw hat, stands in a lush green forest. She is looking upwards with a smile, her hands near her face. The forest is filled with tall trees and dense foliage. Sunlight filters through the leaves, creating a bright, dappled light effect. Three birds are visible: a small yellow and black bird in flight on the left, a larger colorful bird (possibly a kingfisher) in flight in the center, and a small grey bird perched on a branch on the right. The overall atmosphere is peaceful and natural.
